

dayli.ai – Website Content & Structure Document

AI-powered Climate Health Copilot for Women & Children

1. Homepage

Hero Section

Headline:

Your daily health, powered by climate intelligence

Subheadline:

AI that helps women and children stay safe, healthy, and one step ahead of extreme heat and climate risks.

Primary CTA:

👉 Start on WhatsApp

Secondary CTA:

👉 For Clinics & Partners

Hero Visual Direction

- Woman checking phone in hot outdoor setting
- Subtle heatwave overlay (sun/temperature UI)
- WhatsApp-style interaction preview

Problem Section

Climate is already impacting your health

- Extreme heat increases risks for:
 - Pregnant women
 - Young children
- Dehydration, fatigue, missed care → avoidable complications

Today, no system connects climate to your daily health decisions.

Solution Section

Meet dayli

Your AI health companion that adapts to your environment in real time.

- Tracks local weather and heat conditions
- Understands your health needs
- Guides you daily with simple, actionable advice

How It Works (Simple 3-Step)

1. Understands You

- Pregnancy stage or child's age
- Location and daily conditions

2. Monitors Climate Risk

- Heatwaves
- Temperature spikes
- Environmental stress

3. Guides You Daily

- Hydration reminders
- Safe timing for outdoor activity
- Health alerts and check-ins

Example Use Case (Hyderabad Heat)

Tomorrow: 45°C in your area

dayli will:

- Alert you in advance
- Recommend hydration and rest
- Suggest avoiding peak heat hours
- Check on your symptoms

👉 Simple actions. Real impact.

Product Features Section

Daily Health Alerts

Know when heat or weather conditions can affect you

Personalized Guidance

Advice tailored to you—not generic recommendations

Daily Check-ins

Track how you feel and get help when needed

Clinic Support (Optional)

Stay connected with your healthcare provider

Trust Section

Built for real-world conditions:

- Works on WhatsApp (no app needed)
- Designed for low data usage
- Supports multiple languages

CTA Section

Take control of your health—every day

👉 Start with dayli on WhatsApp

2. Product Page

Title:

How dayli Works

Core Explanation

dayli combines:

- Climate data
- Health knowledge
- AI personalization

To deliver real-time, actionable guidance for your daily life.

System Layers (Simplified)

Climate Awareness

Tracks heat and environmental risks in your area

Health Intelligence

Understands your stage (pregnancy / child care)

AI Copilot

Delivers simple daily actions to keep you safe

Interaction Example

Morning Message:

"Today will be very hot (44°C). Drink water every hour and avoid going outside between 12–4 PM."

Check-in:

"How are you feeling today?"

- Fine
- Tired
- Dizzy

If risk detected:

"Please rest and consider visiting a clinic nearby."

3. For Clinics Page

Title:

Reduce No-Shows. Improve Patient Outcomes.

Value Proposition

dayli helps clinics:

- Reduce missed appointments during extreme weather
- Keep patients engaged between visits
- Identify high-risk patients early

How It Works for Clinics

- Patients onboard via WhatsApp
- Receive daily guidance and reminders
- Clinic dashboard shows:
 - At-risk patients
 - Engagement levels

Key Benefits

- Increase appointment adherence
- Improve patient satisfaction
- Better health outcomes

CTA

👉 Partner with dayli

4. For Pharma Page

Title:

Improve Adherence in Real-World Conditions

Problem

Patients often drop adherence during:

- Heatwaves
- Environmental stress

Solution

dayli ensures:

- Continuous engagement
- Climate-aware adherence nudges
- Better treatment outcomes

Use Cases

- Chronic conditions
- Maternal health
- Pediatric care

5. About Page

Mission

To make healthcare adaptive, personalized, and proactive in a changing climate.

Vision

A world where every individual has access to real-time health guidance based on their environment.

Why Now

- Climate risks are increasing
- AI enables real-time decision-making
- Mobile access is universal

6. UX & Design Guidelines

Tone

- Clear
- Calm
- Trustworthy
- Action-oriented

Design Style

- Clean, minimal
- Mobile-first
- WhatsApp-inspired UI

Color Direction

- Warm tones (heat awareness)
- Balanced with calming blues/greens

7. Conversion Flow

Primary Funnel

1. User visits homepage
2. Clicks "Start on WhatsApp"
3. Opens WhatsApp chat
4. Completes onboarding in <1 minute

Secondary Funnel (B2B)

1. Clinic/pharma visits site
2. Clicks "Partner with us"
3. Fills form
4. Sales follow-up

8. Key Messaging Summary

- "Daily health guidance powered by climate intelligence"
- "Prevent problems before they happen"
- "Simple, actionable, real-time"

9. Future Website Extensions

- Regional landing pages (India, Africa, etc.)
- Case studies (Hyderabad pilot results)
- Data dashboards (impact metrics)

Final Note

This website should feel:

- Simple like a consumer app
- Credible like a healthcare platform
- Powerful like an AI system

👉 Not a chatbot. Not a wellness app.

👉 A daily decision layer for health in a changing climate.
